About us

Vidya poweR has a very virtuous back ground preparing students for various competitive exams. We are known for our simplified teaching and highly qualified mentors who always strives for students success. Our methodology revolves around shaping their overall thinking ability – developing their acumen towards the field of competitive Exams. On the completion of the course students are such prepared that their result itself speaks about the accomplishments after their exam. Success is guaranteed in Vidya poweR -the only institute with a record of 92% success rate. If somehow some student marginally miss their dream goal, they excels in other equivalent exams with good ranks in the same year but failure is not achieved by anyone. All the credit goes to students’ hard work and learning environment provided by Vidya poweR and the blessings of Goddess Saraswati.

Course structure : Extensive approach for all the subjects is used to clear concepts on every topic and Tricky approach is followed to make the concepts memorable for each student. Classes are conducted 5 days in a week and weekly performance test (on Sat.) is taken to analyze their shortcomings if any. Good scorers are encouraged by prize distribution every week whereas low scorers are given ample time to strengthen their weakness in any particular area. Syllabus is completed well enough in time and thorough brush up is given of the whole syllabus thereafter.

The National Defence Academy is an iconic institution and hallmark of global excellence in the sphere of military education. Over the years it has emerged as a unique military academy, attracting the best of youth from our nation and also from friendly foreign countries and transforming them into officers and gentlemen. During the last six decades of its glorious existence, the National Defence Academy has grown both in grace and grandeur and from its portals have emerged 'Leaders of Men', who have demonstrated the essence of inter-services camaraderie and joint manship thereby vindicating the faith and vision of its founding fathers. Apart from leaders of men, the alumni have proved to be great mountaineers, cosmonauts, sportsmen, re-searchers, creative writers, artists, corporate honchos and more recently, Olympic champions. Their achievements are all pervading and showcased in every echelon of our Armed Forces and also in the civil so-ciety. The 'Cradle' has indeed rocked the nascent youth and groomed them into 'Leaders' who have lived up to its ethos: 'Seva Paramo Dharma' (Service Before Self). The objective of training, in essence, is to impart ac-ademic and technological training of the highest quality in order to equip cadets with appropriate qualifica-tion as foundation for their service careers. Conduct focused training to enable cadets to achieve the requisite physical and endurance standards, with proficiency in troop games. To inculcate in cadets the qualities of leadership, a desire for self improvement and a drive to excel in every sphere. Incorporate culture of joint manship in training and promote spirit of joint manship in thought, word and deed. Conduct high quality ba-sic military training service and technological training to enable cadets to have a strong foundation in their service careers. Hone the skills of cadets to articulate their thoughts coherently, concisely and clearly, both in speech and writing. Emphasis on overall personality development of a cadet by inculcating a sense of self-discipline, honour, integrity, duty, camaraderie and sense of pride. The endeavour at the Academy has been to continuously upgrade the training methodologies and infrastructure with a view to provide training con-forming to standards laid down by the COSC. With the synergetic approach, the Academy has been fulfilling this onerous task.

INDIAN ARMY

Grit and experience affect the growth of an institution. Fighting four major wars, insurgency and other low intensity wars has indeed made the Indian Army an eminently and efficient battle trained, war machine. Changing times bring changing needs. Battle training must tell also on the structuring of the army, for it is this function that extracts the most from the assets available, both men and material. A look at the command and structuring of the Indian Army shows how finely these have been tuned to meet India's threat perceptions, based on the experience of the major wars that it has fought and the present-day geo-political context.
